

Register of LIT Governors' Interests

Academies are required to keep and publish a register of any interests held by Governors which could potentially conflict or affect their role as a Governor. Written declarations are made annually and at each meeting Governors are required to declare a potential pecuniary interest for any matter on the agenda.

It also sets out any relationships between governors and members of the academies staff including spouses, partners and relatives.

The current interests as reported by the Governors are:

Governors Name	Relevant Business Interests	Relationships with the staff, including spouses, partners and relatives	Interest	Date Declared
