

Can you help please?

We are looking to renovate our outdoor area, lots of the things we require can be made from objects you may not need any more or you have in your garden or workplace. We are trying to stay away from too much plastic and use real items with the children!

If you have any similar items to the ones on the pictures or on the list please let us know, even better, if you are handy with a saw/drill and would be willing to make/help us make something similar to the pictures please let Miss Daboo or the office know, Thank you.

Items that would be useful

Real wooden rowing boat

Deckchairs/Camping chairs

Sails/canopies

Wheelbarrow/gardening tools/equipment

Old bikes, go karts

Wheels of different sizes
